

CSME TC on Computational Mechanics

Chair: J.M. Floryan, UWO, FCSME

Committee Mandate/Scope:

- to promote development of novel algorithms with applications to computational mechanics;
- to promote non-standard applications of computational mechanics;
- to bring together colleagues with interests in computational mechanics;
- to organize relevant symposia during CSME Congresses;
- to provide Canadian representation to international organization involved in computational mechanics.

Keywords: Computational Mechanics, Computational Fluid Dynamics, Computational Solid Mechanics, Computational Dynamics, Artificial Intelligence in Computational Mechanics
