

Landing your dream job is as easy as 1 – 2 – E3!

OSPE is pleased to partner with Transport Canada to present three special Engineering Employment Events (E3's).

Join us in either Mississauga, Ottawa, or Montreal this September to connect directly with managers across Transport Canada seeking to fill multiple engineering positions. OSPE's boutique-style E3's will allow you to personally meet the leaders in each department that interests you and discuss their current job opportunities.

These events welcome both recent engineering graduates and established professional engineers across engineering practice domains. Please note, these events are not open to Student Members.

Want to stand out from the crowd?

E3 participants are invited to attend **Career Quest** immediately prior to each job fair. This workshop will focus on practical considerations for improving your attractiveness as a job candidate and succeeding in getting hired.

What's it like to work at Transport Canada?

We asked the Director of the Transportation Infrastructure Projects and the Director of the Environmental and Transportation Program at Transport Canada. [Here's what they had to say.](#)

Interested in attending?

Choose one of the cities below to register:

- [Montréal](#) (September 11, 2017)
- [Ottawa](#) (September 23, 2017)
- [Mississauga](#) (September 30, 2017)

For more information on OSPE's E3 program, contact Chett Bradley, Program Lead, Learning and Development at cbradley@ospe.on.ca or 1-866-763-1654, x228.
